

March 2012 West Lafayette Beautification Winner

Greyhouse Coffee

The winner of the March 2012 West Lafayette Beautification Award is Greyhouse Coffee Company, owned by Jason Tennenhouse of Purdue Christian Campus House; Kevin Kerkhof and Ali Wisthuff are managers. Greyhouse sits at a dynamic and busy corner in The Village and also owns and operates Greymob, a non-profit design studio and business accelerator. With help from others, Greyhouse hosts Starry Night, an annual outdoor festival that attracts individuals of all ages to hear good music, enjoy local artists and have fun.

When Greyhouse started in July 2008, the mission was to create a space for people in the community to pause, enjoy good food and get to know one another just a little better. The indoor space is a bustling and friendly place where crepes, gelato and coffees are served with a smile. The outdoor space provides tables and chairs for outdoor dining and is thought of as the front porch to Greyhouse. The adjoining outdoor planters have been enhanced with evergreen boxwood, daylilies, chrysanthemums and hostas. More plantings are expected this spring.

Congratulations to Greyhouse!
